- ✓ Powder-coated steel frame
- ✓ Din rail-mounting and protective label casing
on all electrical wiring and components

EFFICIENCY

- ✓ Full microprocessor
- ✓ Weg motor and wye-delta starter

Tamsan-USA is the **new gold standard** in compressed air. Here's why:

Who we are

Tamsan-USA is lead by one of the world's foremost experts in compressed air and is run by an impressive team of innovators, builders, and field experts.

Why we're different

The F-series was designed with users in mind. The service hood opens smoothly with spring assist, making it **the easiest screw compressor to access and service in the United States** (you can reach anything you need within about 18 inches of your hand). Combined with its cutting-edge microprocessor and incredible electrical cabinet, this compressor truly sets a new industry standard for efficiency and reliability.

What we know

This rugged machine can go the distance, no matter the terrain or weather. That's why we back it with our **lifetime airend warranty**.

MODELS & TECHNICAL SPECS

Model	Capacity (CFM)			Motor (HP)	Connection (in.)	Dimensions (in.)	Weight (lbs.)
	125 PSIG	145 PSIG	190 PSIG				
TVK 10F	39	30	28	10	3/4"	29" x 39" x 44"	541 lb.
TVK 15F	66	57	50	15	3/4"	32" x 50" x 49"	816 lb.
TVK 20F	86	71	60	20	3/4"	32" x 50" x 49"	926 lb.
TVK 25F	107	89	78	25	1"	35" x 52" x 52"	1,048 lb.
TVK 30F	128	107	92	30	1"	35" x 52" x 52"	1,070 lb.

Rugged. **Reliable**. Remarkable.
