

# Cube Air System

## 5.5 HP Engine Driven Reciprocating

12 cfm @ 125 psi

### Basic Compressor Features:

- Cast iron reciprocating compressor pump
- Centrifugal unloader
- Disc and spring valves
- Discharge cooling manifold
- Easy open inline check valve
- Easy service belt guard
- Easy to read oil sight glass
- Easy service reciprocating pump platform
- Extended oil drain tube
- Industrial grade electric drive motor
- Inner stage cooler
- Minimal floor space foot print
- Multiplexing capability
- Rigid steel frame construction
- Self tensioning electric motor base

### Package Options:

- Class 1 Div 2 drive motor
- Coalescing filtration
- Desiccant air dryer
- Electronic automatic tank drain kit (shipped loose for installation on site)  
Kit includes: drain, ¼ pipe street 90 elbow, ¼ pipe 6 inch nipple
- Enrollment in factory extended service program
- Enrollment in factory extended warranty plan
- Multiplex control panel
- NEMA 4X electrical components
- NEMA 7 electrical components
- Particulate filtration
- Quick Install Kit Includes:  
8ft electrical cord with plug, 6ft compressor to tank air line JIC fittings, 6ft tank to facility air line JIC fittings
- Reciprocating Pump Enclosure for noise reduction
- Refrigerated air dryer
- 30, 60, 80, 120, gallon storage tank (200 psi MWP, ASME, CRN)

### Platinum Compressor Features:

- All basic compressor features
- Belt guard mounted air after cooler
- Low oil monitor
- High-temp stainless steel flex discharge line
- Vibration isolation mounting pads
- Freight pre-paid in standard freight area

Pictured with optional air storage receiver

| Model | HP  | Engine Start | Engine Brand | Length | Width | Height | Weight |
|-------|-----|--------------|--------------|--------|-------|--------|--------|
| Q-C55 | 5.5 | Pull         | Honda        | 17.25  | 12.5  | 31.5   | 110    |

Add -P to the end of the part number to make Platinum model.  
All dimensions are in inches, weight is in pounds

No Start Up Kit Required ■ Optional 5-year Pump Warranty Available
